There were 2250 votes cast in Salina county at the election Tuesday—an increase of about 400 votes in two years. Our returns as made by the assessors do not show such an increase, and we have to conclude that they do not give that attention to the census that they should.

Splendid mantles of dust were thrown about the voters last Tuesday, and still they waited not in performing their respective duties as sovereigns. Next Tuesday evening a house concert is to be given at the Opera House under the direction of Mrs. Presbrey and C. R. Aldrin. We hope that our citizens will turn out and give this entertainment a large patronage. Mrs. Presbrey is one of the finest singers in Central Kansas and aside from the musical treat which she will furnish is entitled to a benefit concert from the citizens of Salina. In nearly every public entertainment, Mrs. Presbrey has responded to requests made to her to sing, and has greatly added to entertainments in which she has assisted.

The carpet-ball festival in the new building of Briggs & Gebhart's was one of those pleasant entertainments which have frequently been furnished by the ladies of the Presbyterian church in this city. Many a young man—and many a married man too—went in to the room in a state of anxious fear lest he might not be assigned to the lady whom he desired to escort to the supper table—and had those fears realized. Short men found the cards of tall women in the carpet-ball which they had paid their dues. Mrs. Presbrey assisted in the entertainment by singing several songs in a charming manner. Mr. Henry Yung, of Lehigh, furnished some fine piano music. The receipts of the evening were over \$100. The ladies desire to return thanks for the liberal attendance of our citizens.

CHEAP CHARLEY. The Aged, the Feeble and the Convalescent. Find just the help they need in the health and strength giving properties of Parker's Ginger Tonic. This comforting invigorant diffuses warmth and vigor through the system, soothes the nerves, banishes melancholy and gives strength and elasticity to the worn-out frame. It is incomparably superior to wines or liquors and does not intoxicate. Every mother will not only comfort and strengthen herself but will relieve and pacify her nursing babe by the free use of this excellent tonic. Buy a \$1.00 bottle from your druggist, Oscar Seltz, Salina, Kansas, or a sample bottle at 15 cts. and test its merits.

Pretty and Young. In every feature but the hair, which had grown white from fever. This lady at 35 writes us: "I have used Parker's Hair Balsam six months and am more than pleased with it. It has restored the natural brown color of my hair and given it a silky softness, never before. There is no dandruff, no itching hair, and it leaves the scalp so clean and nice and cool that I am ever so much pleased, and I feel and look like myself again." Disinfectant properties that enter chemically into this preparation render it healing, cleansing and healthful, and the beautiful, fresh and vigorous hair it produces, together with its property of restoring the hair to its natural youthful color, leaving the head entirely freed from dandruff, clean and healthy, surprises no less than it pleases. Buy a bottle from your druggist, Oscar Seltz, Salina, Kansas, and test its merits.

An Astonishing Fact. A large proportion of the American people are to-day suffering from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant enjoyment of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western continent.
